## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 15-18, drawn to the method of playing a socializing game, classified in class 273, subclass 430.
  - II. Claims 1-14, drawn to socializing game apparatus, classified in class 273, subclass 296.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus, identification badges, may be used in a different process. The identification badges may be used as question cards in a trivia game played by a group of children. The identification badges are shuffled or scrambled. A person, adult, overseeing the game randomly selects an identification badge and reads the factual information on the badge to the group of children. The child that answers with the correct person, thing, place or event particular to the factual information, wins the badge, and that child wears the badge as a reward. After all the badges are correctly answered and given to the children, the child wearing the most badges wins.

Art Unit: 3711

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

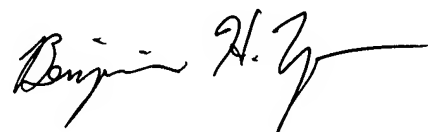

4. A telephone call was made to Dutro Campbell on 04/04/05 and 04/05/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
